MONTHLY SUFFERING.

Thousands of women are troubled at monthly intervals with pain in the head, back, breasts, shoulders, hips and limbs. But they need not suffer.

McKee's Wine of Cardui

makes menstruation painless, and regular. It puts the delicate feminine system in condition to do their work properly. And that stops all this pain. Why will any woman suffer month after month when Wine of Cardui will relieve her? It costs \$1.00 at the drug store. Why don't you get a bottle today?

For advice, in cases requiring special directions, address, giving symptoms, "The Ladies' Advisory Department," The Chattanooga Medicine Co., Chattanooga, Tenn.

AWFUL RAILROAD WRECK.

CRASH OF PASSENGER TRAINS ON THE SANTA FE.

The Boilers of Three Locomotives Exploded After the Terrible Crash.

W. J. BRYAN UNHURT AND HELPING.

EMPORIA, Kan., Sept. 8.—One of the worst wrecks in the history of the Atchafalaya, Topeka and Santa Fe railway occurred three miles east of here at about 7:30 o'clock this evening. Twelve or fifteen persons were killed, and as many more were badly hurt. The fast mail train, going east, and the Mexico and California express, west-bound, collided head on. The Mexico and California express was pulled by two locomotives, and when they struck the engine drawing the fast mail, the boiler of all three engines exploded and tore a hole in the ground so deep that the smoking car of the west-bound train went in on top of the three engines and two mail cars and balanced there without turning over.

KILLED OR MISSING.

—Bragman, Topeka.

Ben Walters, St. Joseph, Mo., a fireman on the west-bound train (missing).

James Brennan, engineer, Topeka.

J. F. Sours, Kansas City, express messenger, body almost consumed by fire.

Wm. Frisby, engineer.

R. A. Doran, Emporia, postal clerk.

—Gonzales, fireman of west-bound train.

Unknown tramp.

THE INJURED.

Phil Schier, Kansas City, hip crushed.

C. A. Vanfelt, brakeman, Kansas City, badly bruised.

William Patrick, Kansas City, leg and arm broken.

C. D. Adams, City of Mexico, painfully bruised.

Michael Sweeney, Gainesville, Tex., leg hurt.

Claud Holliday, Lawrence, express messenger, both legs broken.

D. C. Erter, Kansas City, express messenger, legs broken; will die.

John Dugan, Topeka, face smashed.

J. T. Butler, County Attorney, Chase county, hip broken; may die.

Wm. F. Jones, Kansas City, leg and arm broken.

B. P. Metik, Atchison, badly bruised.

It is feared that nearly all the seven mail clerks perished in the disaster, but so far only six bodies have been taken from the wreck.

It is stated that the wreck was caused by a misarrangement of orders from the trainmaster. At Emporia the east-bound fast mail train received orders to pass the California express at Lang, seven miles east. Another order was sent to Lang for the California express to take the siding there. But this order was not delivered, and the west-bound train passed on, the trainmen expecting to pass the fast mail at Emporia.

The engineer of the west-bound train had received orders to meet the fast mail at Emporia, and was making up lost time. These two are the fastest trains in the Santa Fe system and the west-bound train must have been running at a speed of at least forty miles an hour.

The west-bound express was going around a slight curve, and met the fast mail probably within 300 feet.

Of the seven or eight cars making up the Mexico and California express only the mail, baggage and express and smoking cars were destroyed. The coach following the smoker was badly splintered.

There was not more than a dozen passengers on the fast mail, and in one coach, and while none of them was seriously injured, their shaking up was terrible. Every seat in the coach was torn from the floor, and many planks came up with the seats.

One man, John Sweeney, was thrown over three seats and through a window, but escaped with only scratches and bruises. The other cars of the fast mail train, a baggage and an express, were wrecked.

The passengers in the smoking car escaped through the windows. The front end of this car was enveloped in a volume of stifling smoke and steam belching up from the wreck below, and the rear door was jammed in the wreck of the car behind. The wreck caught fire from the engines. The cars in the hole and the smoking car burned to ashes in no time. In climbing out of the smoking car several men fell through the rifts in the wreck below, and it is impossible to tell whether they escaped or were burned to death.

The west-bound train carried seven or eight coaches and its passengers included many excursionists who had been to hear W. J. Bryan speak at the county fair at Burlington. Mr. Bryan himself was on the train, but was riding in the rear sleeping car, some 400 feet from the cars which were wrecked. He states that nothing but a heavy fog was experienced by the passengers in his coach.

Mr. Bryan was one of the busiest in the crowd of rescuers. He helped to carry out the dead and wounded and gave the greatest attention to their care.

No Lies Go.

The Springfield, Mass., Republican, which is one of the greatest Republican newspapers in New England, says:

No party should indulge in lies.

CHEAPER SCHOOL BOOKS.

THE PEOPLE OF KENTUCKY SHOULD DEMAND THEM.

A Strong Plea in Behalf of the Parents and Children of the State.

A MATTER TOO LONG NEGLECTED.

The people of this State, irrespective of political parties, seem to be aroused to the necessity of getting their common school books cheaper than they are now furnished. From all sections of the State, and from members of all political parties, the demand is made for legislation by the next General Assembly that will lead to that end.

The following is an extract from an article written by Mr. R. E. Puryear, and published in a recent issue of the Campbellsville Times-Journal, which contains facts that cannot be disputed:

The prices of school books have long been extremely exorbitant and a burdensome tax on parents and guardians of children; that there should be legislation in regard to this matter has long been considered by all, but there seems not to be sufficient politics in it to cause legislators to take it up, and I do hope that the press of the State will take the subject up and that the voters of all the parties, Democrat, Republican or Populist, will put enough politics in it to force legislation on the subject; that they will demand of their candidates a pledge, that there shall be, at the next convention of the General Assembly of the State of Kentucky, some enactments regulating the publication and price of school literature.

Of course, it will be understood that I refer to the public schools, and I am of opinion that a specified line of school books should be selected for use in the public schools and be furnished by the State to pupils at actual cost of publication, if not free of any cost, and a change in the line of books prohibited by the law for a fixed period, say five years.

The trouble has been that the people have too long thought that "anybody will do to be sent to the Legislature," hence men have gone there almost entirely devoid of education themselves, men who could not spell the word "Legislature" if they were furnished the letters, and who could not frame or draft the most insignificant bill, and who come away with a "my bill" or two, drafted for them by some one else.

It is high time, indeed, that the people take the matter in hand and select their own candidates for the legislature, and not be dictated to on that subject by a few men styled a committee, who often are themselves dictated to by one man, who "picks out" his candidate for the legislature to further some individual scheme of his own, or to be on to himself the support of some family or neighborhood for himself in some future race he contemplates making.

A maker of law ought just as well to have some knowledge of law and legislation, and be educated to that work, as that the maker of a house ought to be a carpenter, and not a silvermith; at least a legislator ought to be a man of fair education, good ability and honest, with some experience of men and affairs.

So let the people arouse themselves as to who shall be their candidates for the Legislature, in any and all the legislative districts, and demand of those candidates that there shall be legislation that will either furnish the children free school books, or books at the actual cost of production, and that these books shall not be changed for three, five, seven or ten years; then little sister may use big brother's books and the parents or guardians not be forced to an annual heavy expenditure for books. The present condition is no less than an outrage and greatly hinders the cause of education.

People suffering from Kidney Diseases find a gradual but steady loss of strength and vitality. They should lose no time in trying a Guaranteed Preparation.

F. M. HOOVER, Hartford.

J. H. WILLIAMS, Hartford.

Who Demand Gold?

(Chicago Dispatch.)

Who are the men demanding gold for their greenbacks? Are they the plain people of the United States? Not by any means. They are simply a few speculators and money sharks.

There is no law compelling the Treasury of this Government to pay out gold for greenbacks. There is simply a conspiracy among the advocates of gold to keep up the pretense that the "honor" of the nation is pledged to the redemption of these notes in gold coin.

It is an absurd proposition on its face to suggest that with \$150,000,000 of gold, more or less, generally less, in the Treasury, this Government stands ready to redeem \$346,000,000 worth of greenbacks. The Wall street gold gamblers know this and they raid the Treasury with careful discrimination, being aware that a too-exorbitant demand would result in killing the goose that lays the golden egg.

Just now, more care than usual is being taken not to drain the Treasury of its gold. The Republican party is in power, and it is the party recently pledged to gold monometallism, though in honor bound by its platform resolutions to labor for bimetalism. Know-

ing that this trust-ridden party will do all it can to make the redemption of greenbacks in gold legal, the speculators are moderate in their demands now, looking forward to an exceeding great reward.

The monetary policy of the Republican party is an outrage on common sense and common honesty. It is founded on a false assumption and fostered by illegal acts. It is opposed to the interests of the people and is planned to benefit the plutocrats.

The masses are tired of listening to platitudes and promises; they are suffering from class legislation and are rallying around the standard of Democracy for victory in 1898 and the election of a President in 1900, who will be of aid and for the people.

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, get your urine aside for twenty-four hours; a sediment or settling indicates kidney or bladder trouble. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney and bladder remedy is soon realized. If you need a medicine you should have the best. At drug stores fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent by mail. Mention THE HERALD and send your address to Dr. Kilmer & Co., of Binghamton, N. Y.

Big Cave of Ice.

(New York Herald.)

A Colorado photographer, by the aid of powerful flash lights, has taken photographs of one of the most remarkable caverns yet discovered. This cavern was found by some prospectors who were doing their assessment work on a group of mining claims on Cow Mountain, six miles east of Cripple Creek, Col. One of the miners was working in the bottom of a tea foot hole, when he suddenly struck the point of his pick through the rock into apparently unlimited space. He cautiously investigated and gradually opened up a pit that led to another world, to all appearances. Rocky dropped into the hole, however, struck bottom in about two seconds, showing that the hole was not very deep at that place. The men got a rope and fastened it securely above and descended to explore the immense cavern, which proved to be a veritable storehouse of ice. Stalagmites and stalactites of pure ice stood like cypress trees from the floor and hung like a ghostly fringe from the ceiling.

Explorations were not carried very far, as a yawning abyss was encountered at a distance of about fifty feet from the entrance. Chunks of ice thrown down this abyss could be heard rattling and clanking on the sides, but never a sound of the bottom being reached.

The chamber where the picture was taken is about seventy-five feet high and about fifteen feet wide. Beyond this room the cave widens and the interior seems abyssal. An effort will be made to open the cave to a more thorough exploration. Some who have visited the wonderful discovery are of the opinion that it is a great cave or fissure in a glacier which for centuries has been slowly making its way down from Pike's Peak, and whose waters are now feeding the Arkansas river.

Chills are a bad sign. Chills portend the approach of serious disease. They precede pneumonia, inflammation of the bowels and many other dangerous diseases. They should never be neglected. Bell's Peppermint Cure cures them. It tastes like mint candy. All druggists guarantee it. For sale by Z. Wayne Griffin & Bro.

How He Succeeded.

(Boston Herald.)

Julius Lipton, who has made \$500,000 in the grocery business in twenty years, and who has just departed from our shores after a tour of the United States, attributes his success to printer's ink, employed in the advertising columns of the newspapers. It is his opinion that one might as well undertake to run a store in a tunnel as try to do business without appealing to the public through the press.

SIGNIFICANT EVENTS.

The Election in the Fourth Indiana District.

PERFIDY OF THE OHIO POPULISTS.

Surprising Democratic Majority in Judge Holman's Old District—Middle of the Road Populists Name a Ticket For the Purpose of Aiding Hanna.

The result of the special election in the Fourth Indiana district to fill the vacancy occasioned by the death of the late Judge W. S. Holman is of special significance. Last year the normal majority of the Democratic fusion ticket in the district was 747. Mr. Holman ran ahead of the ticket in the district and received a majority of 825 votes.

Last year the Populists put up no candidate against Judge Holman. At the recent election the Democratic candidate, Hon. Francis M. Griffith, was compelled to fight the Populists as well as a Republican candidate. Both of his opponents are preachers, and personally popular in the district. There were no personalities in the campaign, the contest being fought on purely political lines, the money question playing the most prominent part.

Our dispatches show that Mr. Griffith was elected by the surprising majority of 1,152, in the face of the fact that Dr. Browder, the Populist candidate, received 600 votes, whereas Judge Holman, with no Populist opponent, and with both parties polling their full vote, had a majority of only 825.

Our readers can sit out the significance of this result for themselves, bearing in mind the fact that Judge Holman was a man of national reputation and the most popular public man in his district. He was never defeated in 1894, when the voters of the country united to protest against Clevelandism. He was re-elected last year after the people had discovered that Clevelandism bore no relation to Democracy.

In 18
